

Change of MPN

Dear Employee:

Unless you pre-designate a physician or medical group prior to injury, any new work injuries occurring on or after Insert Effective Date of New MPN, you must seek treatment from providers in a new Medical Provider Network, **CNA MPN**, with the identification number 0560. If you have any existing injuries you may be required to continue care under your current MPN or you may be required to change to a provider in the new MPN. Please contact your claim specialist for further information and direction. For periods when you are not covered under a MPN, you may choose a physician 30 days after you've notified your employer of your injury. You may obtain more information by calling CNA at 1-888-202-4964.
