

New in Risk Control

School of Risk Control Excellence (**SORCE**) *On Demand*
<http://cnatraining.puresafety.com/>

Online Training

SORCE is a training product offered by CNA Risk Control to connect with our customers by educating them in loss prevention, risk transfer and risk management techniques.

In order to expand our training services to our customers and their employees, CNA's **SORCE** now has courses available online through **SORCE On Demand**. Within this site, you may select from a variety of courses, starting at the staff-level, to help your business maintain profitability by controlling exposures.

Library of Risk Control Courses

At CNA **SORCE On Demand**, you'll have instant access to our library of risk control courses. These courses are based on proven adult-learning principles and the latest regulatory requirements to ensure every learning experience is interactive and relevant.

Discounted Rate for CNA Insureds

As an insured company of CNA, you will be able to access many of the courses for free or at CNA's discounted rate through a corporate VIP code.

Automated Reporting Tool

In addition, a robust reporting tool allows regulatory compliance and training accountability through automated reporting and recordkeeping.

Identifying Risk and Controls

Efficient and Economical

OSHA 10-Hour Construction and General Industry

You can now access OSHA 10-Hour online that is both time efficient and economical. Cost is only \$99 per student for CNA insureds.
