SCHOOL OF RISK CONTROL EXCELLENCE WEBINAR SCHEDULE

Understanding Risk is Key to Managing It

Whether your company is a small business or a large commercial enterprise, exposure to risk can result in business loss and interruption. CNA's School of Risk Control Excellence (SORCE) can help your business maintain profitability by cutting costs and controlling exposures.

Our Webinars are approximately one to two hours in length and respond to the needs of a specific industry. Classes are continuously added throughout the year based on our customers' training needs, so check back often.

Click on View Schedule below for a list of Webinars available for each industry.

Please note these points before attending a CNA School of Risk Control Excellence Webinar.

- To obtain audio and Web information, please register below.
- You will receive a confirmation email to include date, time and dial-in information for that specific Webinar.
- Three days prior to the event, you will receive a reminder email with event attachments, if applicable.
- Registration closes 30 minutes prior to Webinar start time.
- Maximum registrations accepted for each Webinar is 200.
- Please note some Webinars may be recorded for training and quality assurance purposes.

HealthCare		
HealthPro: Unintended Consequences of Medical Technology Emerging healthcare technologies are expected to continually revolutionize the healthcare delivery system vastly improving the ability to screen, diagnose, and treat a wide range of conditions that include cancer, cardiovascular disease, diabetes and others. While innovation holds great promise for managing chronic disease and improving health, there is considerable discussion regarding how a healthcare organization can optimize their approach to the regulatory requirements and risk issues inherent in implementation of emerging technologies. This session will explore select technologies and treatments that exemplify a new paradigm for healthcare technology and identify strategies to use for managing the associated, and often unintended, risks.	July 27, 2010 2:00pm – 3:00pm ET	Register
