| <p><b>Stormy Weather: Key Learnings for Hospitals on Preparing for and Surviving Natural Disasters</b></p> <p>Much effort is made to ensure that hospital emergency preparedness plans are designed to better manage the safety and well-being of patients during natural disasters. Equally as important is a hospital's ability to ensure the safety and well-being of the organization when a natural disaster occurs. This program will highlight common and uncommon risk exposures from natural disasters, such as floods, fires, ice storms, and tornadoes, how an organization can assess its current ability to withstand these threats, and strategies hospitals can take to better manage these risks.</p> | <p><b>December 9, 2009</b><br/><b>2:00pm – 3:30pm EST</b><br/><b>1:00pm – 2:30pm CDT</b></p> | <p><b>To register contact:</b></p> <p><b>Becki Kanjirathinkal</b><br/><b>at</b><br/><b>1-816-676-1934 or</b><br/><b>email</b><br/><a href="mailto:becki.kanjirathinkal@cna.com">becki.kanjirathinkal@cna.com</a></p> |
