SCHOOL OF RISK CONTROL EXCELLENCE WEBINAR SCHEDULE

Understanding Risk is Key to Managing It

Whether your company is a small business or a large commercial enterprise, exposure to risk can result in business loss and interruption. CNA's School of Risk Control Excellence (SORCE) can help your business maintain profitability by cutting costs and controlling exposures.

Our Webinars are approximately one to two hours in length and respond to the needs of a specific industry. Classes are continuously added throughout the year based on our customers' training needs, so check back often.

Click on View Schedule below for a list of Webinars available for each industry.

Please note these points before attending a CNA School of Risk Control Excellence Webinar.

- To obtain audio and Web information, please register below.
- You will receive a confirmation email to include date, time and dial-in information for that specific Webinar.
- Three days prior to the event, you will receive a reminder email with event attachments, if applicable.
- Registration closes 30 minutes prior to Webinar start time.
- Maximum registrations accepted for each Webinar is 200.
- Please note some Webinars may be recorded for training and quality assurance purposes.

Construction		
<p>Risk Transfer Solutions for Subcontractors</p> <p>Contractors need to know contractual provisions found in all construction contracts. Mr. Davis will cover key contract language, such as contingent payments, indemnification, project delays and warranties from a layperson's perspective, describing the practical as well as legal impact of these provisions and others. Most importantly, Mr. Davis will inform of you ways to address and change some of this one-sided, risk-shifting language so the playing field is more level. Finally, he will suggest ways to evaluate the language you agree to in the draft contract and make a decision based on a risk-benefit analysis.</p>	<p>April 27, 2010 2:00pm – 3:30pm EST</p>	<p>Register</p>
