Quote Advantage

Quote Advantage is simply the fastest way to get CNA Connect® and Workers' Compensation quotes, taking advantage of CNA's leading automation capabilities and comprehensive base coverages. Built for single location risks with no losses, Quote Advantage is a single screen application process that provides a bindable quote tailored to the specific business.

Benefits:

- **Speed** - The fastest way to quote
- **Ease of Use** - Minimal data entry and only one short screen
- **Accurate** - The full rating power of CNA Central applies to Quote Advantage, including underwriting and catastrophe management rules, geographic guidelines and account clearance/risk reservation
- **Coverages** - Based on commonly purchased coverages
- **Seamless** - Quotes can be edited in CNA Central just like any other quote

Common Questions:

What coverages are generated through Quote Advantage?

We generate a quote option for each risk that is based on the most commonly purchased coverages for your client's class. Common coverages include:

CNA Connect®:

- \$1,000,000/\$2,000,000 General Liability
- \$1,000 property deductible
- Policy level windstorm/hail deductible

Worker's Compensation:

- \$1,000,000 Employers' Liability limits

In addition to these commonly purchased coverages, the full menu of 300+ optional coverages can be easily added to Quote Advantage quotes using the normal 'Edit Quote' functionality.

How do I see all of the coverages applied to my quote?

Full coverage details can be viewed by reviewing the quote proposal document, the quote details on CNA Central or the CNA Connect® Application.

How did you eliminate so many entry fields?

We streamlined Quote Advantage by keeping only the most critical fields that impact the rate and final premium. Other fields were defaulted to the most commonly entered values, similar to our coverage approach.

How do I change or issue a Quote Advantage quote?

Quote Advantage quotes can be edited, referred if needed, and issued just like any other CNA Connect® quote. If any of the defaulted values need to be changed, you can easily accomplish this through the normal quote editing process.

Does Quote Advantage decline or refer quotes to underwriting?

Quote Advantage uses the same eligibility and referral rules as other quotes in CNA Central, including Catastrophe Management, Terrorism, and other geographic/class restrictions. Declinations, while rare, will be indicated on the quote results screen. Risks requiring underwriting review can be referred using the current CNA Central process.

Does Quote Advantage reserve the client for my agency?

Quote Advantage generates a full, bindable quote. Once this quote is complete, you are considered the agent of record for that line of business until the quote expires. Quote Advantage will not provide a quote for any line of business already reserved for that client by another agency.

Experience the CNA Quote Advantage today, and see just how quick and easy you can grow your small business book!
