

Marine Capabilities

Customized Solutions
for Global Marine Exposures

Start

Overview

As one of the oldest marine insurers, CNA has the experience to meet the evolving needs of our policyholders and help businesses safeguard what matters most, every step of the way. From global transporters to local contractors, we understand that businesses require specialized insurance solutions tailored to their unique challenges.

CNA's comprehensive Marine program provides customized coverage for Ocean Cargo and Inland Marine, with the ability to add other lines for more robust coverage.

The CNA Difference

Working closely with agents and brokers, CNA uses dedicated teams, in-depth expertise and open collaboration to address the specific insurance needs of each policyholder.

Dedicated Teams. Our specialized team focuses on every detail, exposure and situation, actively listening to and collaborating with partners while remaining nimble to unique risks.

In-Depth Expertise. Powered by a diversity of talent around the world, we have a long history of technical expertise, and our multinational capabilities allow us to provide effective solutions for businesses of all sizes.

Open Collaboration. Our experienced Underwriting, Risk Control, Marine Claims and International Solutions teams collaborate openly to mitigate risks at every stage. From claim reporting to resolution, our approach is consistent, personalized and seamless – ensuring a superior customer experience.

Ocean Cargo

CNA's Ocean Cargo coverage is designed to insure a wide range of materials and products in transit overseas. We offer a full suite of cargo insurance products and services that can be tailored for the unique needs of companies around the globe. Our comprehensive Marine package can be coupled with the collateral line, providing flexible, individualized solutions for your clients.

Robust Underwriting Appetite

CNA's dedicated Ocean Cargo underwriters tailor coverages to meet individual client needs. Ocean Cargo coverages address goods shipped by water or air, and include all intermediate transit by rail or truck, as well as incidental warehouse storage. Coverage can be extended to include:

- Commercial Hull and Protection Indemnity
- Consolidation/Deconsolidation
- Contingent Interest
- Domestic Inland Transit
- Excess Marine Liabilities
- Exhibition, Demonstration and Consignment
- Expediting Expense
- Foreign Overseas Inland Transit
- Marine Liabilities (including Ship Repairers and Wharfingers)
- Marine Services Liability (combines GL with Marine Liabilities)
- Ocean Cargo
- Salesperson's Samples
- Warehousing

Additional Coverages

- Charterers
- Marine Contractors
- Marine Professional Trade
- Marine Retailers & Ship Chandlery
- Marine Transportation
- Shipyards
- Stevedores & Terminal Operators
- Subcontractors: Marine Trades
- Subcontractors: Energy Trades
- Tankerman's Legal Liability
- Wharfingers, Landing Docks & Fleeters

CNACargo.com

CNACargo.com is an automated issuance system for agents and policyholders to easily and efficiently manage Ocean Cargo policies worldwide. With CNACargo.com, agents and clients have the ability to access policy information, issue certificates and find claims-settling agents from anywhere in the world, at any time.

Inland Marine

CNA offers a broad suite of Inland Marine solutions tailored to construction, logistics and transportation companies. Our Inland Marine coverages span risks related to accounts receivables, buildings under construction, communications equipment, mobile property and equipment, and more.

Robust Underwriting Appetite

We have long been known for our underwriting acumen. Our industry specializations are complemented by our ability to write business across a broad spectrum:

- Builders Risk
- Fine Art
- Contractors Equipment
- Electronic Data Processing Property
- Installation Coverage
- Medical Equipment
- Miscellaneous Property Floaters
- Transportation
- Program Opportunities

Global Expertise

Our global representation and robust multinational capabilities allow us to serve companies in more than 150 countries, from small businesses to large corporations. We have a strong U.S. presence with local underwriting authority in office locations throughout the country.

International

In today's globalized business environment, many companies are turning to CNA for assistance in managing their complex global property and casualty risks. For businesses that have foreign imports or exports, sell products over the internet, have employees who travel internationally on business, or face other international risk exposures, we can provide insurance solutions that go beyond geographic boundaries.

CNA's worldwide network, broad product array, customer-focused underwriting and superior service, in tandem with our ability to navigate evolving country-specific regulations and compliance issues, allow us to create innovative solutions for companies with international risk exposures.

Our integrated multinational platform seamlessly delivers expertise, market-leading products and capabilities to businesses of all sizes with domestic, international and global exposures. We write business around the globe through our CNA branch network and utilization of our CNA ComPass™ platform, allowing us to manage the administration of the local admitted policies written on a global basis.

International Business Insurance Coverages

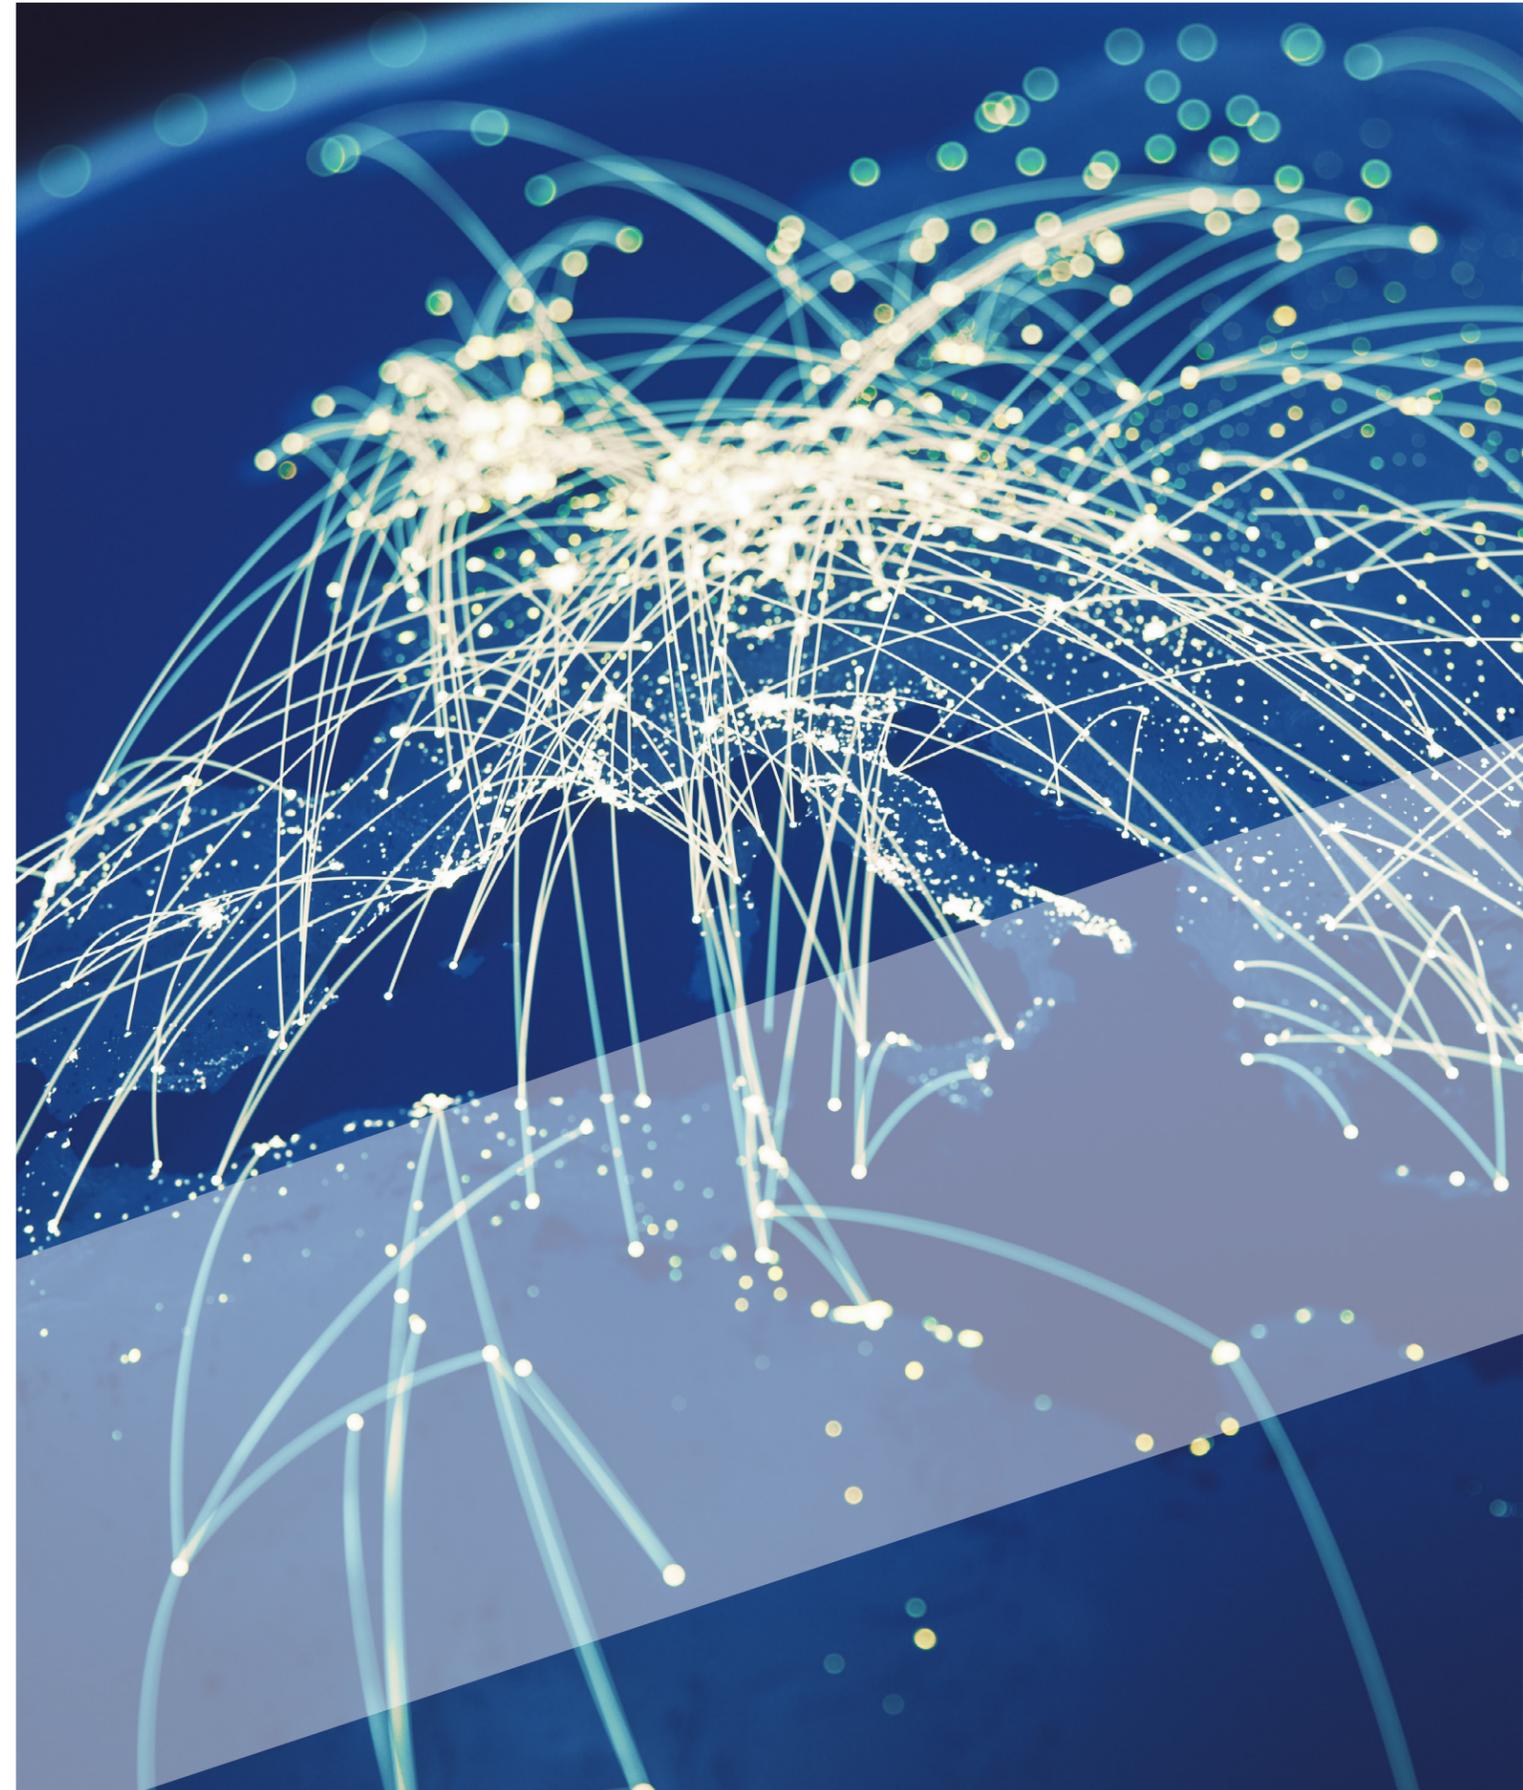

- Property/Business Income/Crime/Equipment Breakdown
- General Liability
- Employee Benefits Liability
- Automobile Difference in Conditions Liability
- Workers' Compensation & Employers' Liability
- Business Travel Accidental Death & Dismemberment
- Kidnap & Ransom/Wrongful Detention
- Executive Assistance Services
