

International Solutions

Capabilities in 164 Countries

In today's global business environment, success is increasingly sought outside your own borders. And since domestic insurance policies typically don't cover overseas events, you need international business coverage that follows your business and your employees all over the world. That's why a growing number of multinational businesses are turning to CNA to help manage their increasingly complex global property, casualty and professional risks.

Our worldwide network, broad product array, customer-focused underwriting and superior service, along with our ability to navigate ever-evolving country-specific regulations and compliance issues, allow us to create innovative solutions for companies with international risk exposures.

For more information on CNA's international coverage offerings, visit cna.com/international.
