

Protect your clients from a wider range of risks with enhanced Motor Truck Cargo Legal Liability Coverage

With enhanced Motor Truck Cargo (MTC) Legal Liability coverage from CNA, your clients now have access to critical cargo liability protection, on the road and at the terminals. In addition to Motor Truck Cargo coverage, CNA offers a full suite of coverages for the logistics industry, including Contingent Cargo for freight brokers and Warehouse Legal Liability for warehouse operators.

Why CNA for your client's MTC coverage?

As a leading global Inland Marine insurer, we understand the unique needs of motor carriers. And we've made it easier than ever for independent agents to protect them, with flexible insurance coverages and comprehensive risk control programs. From underwriters to claim service specialists, our dedicated professionals are focused on providing you and your clients with everything you need for business success.

Driving loss prevention with CargoNet™

We're committed to helping your clients identify losses before they occur. That's why CNA is a charter member of CargoNet™, a cargo-specific theft prevention and recovery network that blankets the nation. This system tracks down stolen equipment by alerting law enforcement of the theft. In addition, CargoNet™ transmits a theft alert to thousands of drivers, gas stations and rest stops at the theft victim's request. As a result, cargo crime networks are disrupted and theft is reduced through the increased likelihood of arrest and prosecution.

Experienced claim professionals available 24/7

CNA offers dedicated claim adjusters for Motor Truck Cargo Legal Liability policyholders, so your client's claim will always be evaluated by an experienced professional. And reporting a claim is easy. Whether by phone, fax, email or web, our adjusters are available 24 hours a day, seven days a week.
