

CNA Connect® for Photographers and Videographers

SMALL BUSINESS

Every photographer and videographer faces different types of risks. Fortunately, CNA has a complete line of products to address virtually all of them. With CNA Connect®, Photographers and Videographers Errors & Omissions (E&O) coverage and Passport Access®, you will have tailored coverage designed for your business, which will help safeguard your reputation and preserve your relationship with your customers.

Picture perfect coverages for photographers and videographers:

CNA Connect® — Our flagship property and liability policy for small businesses like yours offers broad and relevant protection, with a wide range of coverages, limits and deductible options that go well beyond industry standards.

- **Liability Off-Premises** — Your business is not always contained within four walls. CNA Connect's® liability coverage follows you throughout the U.S.
- **Scheduled Property Option** — By specifically scheduling your delicate camera equipment, you can be sure that your equipment will be protected worldwide — even from marring and scratching of photographic lenses.
- **Spoilage** — If your film or photographic paper is sensitive to temperature change — we have you covered.
- **Electronic Data Processing** — This coverage provides protection for your computer and editing software equipment.

Passport Access® — If you or your employees travel outside the U.S. for photo shoots, your equipment will be protected with our Passport Access® coverage. This coverage protects your equipment from damage or confiscation during your travels. Passport Access® also provides worldwide General Liability coverage.

Errors & Omissions (E&O) — Veteran photographers and videographers know that pleasing a client is the most important aspect of their job. When a client is not pleased, most professionals will do a reshoot at their own expense, but this may not always be enough to prevent a claim.

CNA Photographers and Videographers E&O coverage may help you protect your business. This coverage can protect you from unexpected events that could damage your hard-earned reputation, such as scheduling errors or losing or damaging film after a shoot.

As an added benefit, E&O coverage protects you against expenses due to legal defense or court costs in the event legal action is taken against you. This coverage will also protect you from having to pay attorney's fees and other legal expenses.

Your customers trust you to deliver professional results. With CNA's Errors & Omissions coverage, you can safeguard the relationship you have with your clients and preserve your professional reputation in the industry — every time.

Great businesses are built on solid relationships.

We understand long-term relationships are valuable to your business. Rated "A" by A.M. Best, CNA has the financial strength you can count on with more than 100 years of experience serving business owners across the country and around the globe.

When it comes to protecting photographers and videographers ... **we can show you more.®**
