

Introducing

CNA EcoCare Property Upgrade.

Helping protect your client's future and the future of our planet.

www.cna.com

At CNA, green practices have been a part of our day-to-day operations for many years. We're pleased to expand upon our commitment to the environment with the announcement of our EcoCare Property Upgrade Extension Endorsement — property coverage that helps protect your clients' future and the future of the planet.

This endorsement applies to building and personal property owned by the insured, and provides for green building upgrades as a result of a covered loss to the building or contents, subject to a specified percentage or dollar limit purchase. Upgrades could encompass green structures, materials or processes incorporating energy, water, and material efficiencies and environmental quality.

Automatic additional coverages include:

- Vegetative roofs
- Recycling additional expenses
- Architect and engineering expenses
- Certification or recertification expenses
- Ventilation of reconstructed buildings
- Business income

Endorsement highlights:

- Coverage is provided by scheduled location for a stated percentage increase over the normal covered loss or limit (whichever is less), and can be capped with per occurrence dollar limits.
- For buildings with existing green features, CNA's standard property coverages contemplate re-building with like kind and quality green features under our existing replacement cost coverage.
- CNA's building ordinance or law coverage provides for green updates as required by ordinance or law.
- CNA's Property Upgrade Extension Endorsement provides insureds with a green orientation, the option to repair damage resulting from a covered loss with green materials or components, subject to a specified optional limit purchased.
- Does not require LEED certification.

The effort doesn't stop here — our teams are always working to develop additional products and services to help meet your client's business needs.

When your clients are looking for coverages that protect them and the world they live in ... **we can show you more.SM**
