

International Solutions

CNA International Claim Scenarios

More than 50% of all U.S. businesses have operations outside of the country, and these companies face a different set of exposures than their U.S.-only counterparts. Domestic insurance policies typically do not have enough coverage to protect these businesses from overseas events, which could lead to devastating judgments and severe financial losses or penalties to your customers.

CNA is committed to providing competitive, quality insurance products through prudent underwriting, superior service, expert claim handling and innovative solutions. From large to small businesses, our knowledgeable underwriters can tailor each policy to fit your clients' insurance needs.

CNA can provide the following coverages:

- Property/Business Income/ Extra Expense/Equipment Breakdown
- General Liability
- Employee Benefits Liability
- International Excess DIC/DIL Business Auto
- Foreign Voluntary Workers' Compensation and Employers Liability
- Business Travel Accidental Death and Dismemberment
- Kidnap and Ransom/Wrongful Detention
- Incidental Ocean Cargo
- CNA Companion Services® (Travel Assistance Services)
- Local admitted policies administered via CNA ComPass™

Typical classes of business that require international insurance:

- | | |
|------------------------|-------------------------|
| • Importer/Exporter | • Technology |
| • Manufacturers | • Real Estate |
| • Distributors | • Contractors |
| • Internet sales | • Colleges/Universities |
| • Employee trip travel | • Law Firms |

Claim Scenarios

Property

Theft of Laptops While Traveling in France

The Situation: Employees of ABC International Corp. are attending a trade show in France. There is an overnight break-in at the trade show event and four laptops of ABC are stolen.

The Outcome: CNA's International Property coverage form will respond to theft losses that occur in France.

General Liability

Property Damage Occurrence in Mexico

The Situation: An employee of ABC International Corp. accidentally triggers the automatic sprinkler system in his hotel room while traveling in Mexico, causing extensive water damage to the floor.

The Outcome: CNA's International General Liability coverage form will respond to the property damage suit for payment in Mexico (as well as in the U.S. jurisdiction if suit is brought back to the U.S.).

Bodily Injury Occurrence in the United Kingdom

The Situation: ABC International Corp. installs a piece of equipment at a customer's plant in the United Kingdom. A third-party visitor to the U.K. plant trips and falls over equipment left on the floor during the installation process being performed by ABC. The third party suffers a leg injury and brings suit in the U.K. for his injury.

The Outcome: CNA's International General Liability coverage form will respond to the premises/operations suit for payment in the U.K. (as well as in the U.S. jurisdiction if suit is brought back to the U.S.).

Products/Completed Operations Occurrence in Germany

The Situation: ABC International Corp. is a U.S.-based manufacturing company that installed a piece of equipment at a customer's location in Munich. The machinery had inadequate safety guards in place, which in turn caused a third-party injury to occur after the equipment was used by the insured's customer. The injured party sues the local German company and ABC in Germany for a bodily injury claim.

The Outcome: CNA's International General Liability coverage form will respond to the products liability suit for payment in Germany (as well as in the U.S. jurisdiction if suit is brought back to the U.S.).

Automobile Liability

International Excess DIC/DIL Business Auto Coverage

The Situation: An employee of ABC International Corp. rents a vehicle in Singapore during a business trip. The employee is involved in a car accident that causes property damage to a retail store. The property damage exceeds the local statutory limit of coverage provided under the rental/lease agreement insurance coverage and the employee is found liable for the damages.

The Outcome: CNA's International Excess Difference in Conditions Automobile policy provides third-party property damage liability coverage in excess of local policy limits.

Workers' Compensation

Foreign Voluntary Workers' Compensation and Employers Liability

The Situation: An employee of ABC International Corp. is injured while lifting heavy boxes at a work-related event in Egypt. The employee suffers a severe back injury that requires him to be hospitalized. After further review the local physician determines that he requires specialized surgery that could only be provided in the U.S. The employee is expected to miss work for 12 to 18 months.

The Outcome: CNA's Foreign Voluntary Workers' Compensation coverage provides State of Hire Benefits for the U.S. National employee's work-related injury. The policy also provides Repatriation Expense coverage (i.e. the amount in excess of the normal transportation costs the employee would have incurred to return to the U.S. if no loss had occurred). The repatriation expense coverage enables the employee to be transported back to the U.S. for further treatment.

Employers Liability

The Situation: A local national employee of ABC International Corp. in France suffers a work-related injury. The amount of the loss exceeds the amount of coverage available under the local workers' compensation government program in France.

The Outcome: CNA's International Employers Liability coverage will provide payments to the employee up to the limit of the policy.

Additional Coverages

CNA Companion Services®

The Situation: An employee of ABC International Corp. has lost his wallet and passport while traveling in Italy. He does not speak Italian and does not know where to turn for assistance.

The Outcome: Through the CNA Companion Services® (Travel Assistance Services) the employee will secure the necessary travel documents and emergency personal cash advancements that will enable him to continue on his business trip.

Business Travel Accidental Death and Dismemberment Coverage

The Situation: A U.S. employee of ABC International Corp. suffers a non-work-related bodily injury claim in China while traveling on company business.

The Outcome: CNA's International BT AD&D coverage part provides medical benefits for this injury up to the limits of insurance provided within the policy.

Kidnap & Ransom

The Situation: An employee of ABC International Corp. is abducted while traveling in Argentina.

The Outcome: CNA's International Kidnap & Ransom coverage will indemnify ABC International Corp. for "ransom monies" and expenses paid out along with wrongful detention expenses incurred up to the limits of insurance provided in the policy.

Local Admitted Coverage

The Situation: ABC International Corp. has a production plant in Mexico. A third-party liability loss occurs at the location and the Mexican government seeks confirmation that a local admitted liability policy is in force for the insured's location.

The Outcome: Since CNA has arranged for the issuance of a local admitted liability policy in Mexico, the insured is in compliance with local admitted insurance requirements.
