

Employer's Quick Reference Guide

First Fill Pharmacy Program for Workers' Compensation

First Script is a pharmacy benefit program specifically designed for workers' compensation. With First Script, injured employees can fill their injury-related prescriptions at one of 70,000 nationwide pharmacies with no out-of-pocket expense.

First Fill Process

Injured Employee

First Fill form completed by Supervisor/Risk Manager

Employee receives prescription to fill at pharmacy

Employee goes to pharmacy with Rx and First Fill info

Pharmacy calls to verify eligibility and get member ID

Medications dispensed to injured worker

FIRST FILL PROCESS

- Employer provides form to injured employee with their Name and Date-of-Injury filled out
- Injured employee provides form and prescription to network pharmacy
- The pharmacy calls First Script to verify eligibility information and to get the Member ID#
- The pharmacy fills approved prescription

FIRST SCRIPT FEATURES & BENEFITS

- No out-of-pocket cost for injured employee
- Capture first prescription before claim is filed
- First Script takes the risk on initial prescriptions
If a claim is deemed non-compensable, you're not responsible for prescription costs.
- Easy processing *Injured workers present the First Fill Form to the pharmacy who contacts the 24/7 Customer Service Center to obtain information.*
- First Script provides a drug utilization review
To promote appropriate dispensing of workers' compensation medications we provide formulary control and generic substitution.
- Initial First Fill card will be available for 10 days from date of injury.
- If the injury is deemed compensable, the injured worker will receive a pharmacy benefit card in the mail to use when filling all future workers' compensation related prescriptions.
