

# One complete policy. One less worry. Precision-built coverage for today's manufacturing risks.

MANUFACTURING

## Rely on the simplicity and customization of CNA Paramount®.

For the customized property, crime, general liability and umbrella coverages needed to meet the demands of businesses, manufacturers look to CNA Paramount® for a package policy that's easy to understand. CNA has experience writing for a broad range of industry codes and is the endorsed carrier for two of the nation's leading manufacturing trade associations. We've used our experience to develop a contemporary, integrated and customizable package policy designed for the unique characteristics of commercial manufacturers.

### Coverages and provisions that manufacturers need most.

CNA Paramount® offers manufacturers a range of essential coverages. Property and general liability coverage highlights for eligible and qualified insureds include:

#### Dependent property time element coverage (contingent business interruption)

The CNA Paramount® Business Property Coverage Part offers coverage for business income loss resulting from direct loss caused by a covered peril to properties not owned or operated by the insured, but upon whom the insured depends on for business.

#### Accidental marring or scratching of molds, dyes, patterns or plates

Unique and expensive manufacturing property in the care, custody or control of the Named Insured, if damaged, can be extremely costly. Coverage is available under the Manufacturers Property Extension Endorsement for marring and scratching of molds, dies, patterns or plates — owned by the Named Insured or owned by others in the Named Insured's care, custody or control.

#### Supply chain disruption

Coverage in case a business income loss is incurred from physical loss or damage caused by a covered peril to property at a premises operated by others that delivers materials or services to scheduled dependent properties.

#### Valuation for finished stock and selling price

Under the valuation section of the First Party Terms and Conditions we've built in that finished stock and merchandise which has been sold and not delivered will be valued at the regular cash selling price less certain costs and charges.

#### Processing water costs and expenses

The CNA Paramount® Manufacturers Property Extension Endorsement offers coverage for the costs and expenses incurred by the Named Insured for the replacement and transportation of water to certain locations to continue operations due to a lack of water supply at such location.

#### Product recall expense coverage

Few events can damage brand integrity or challenge long-term success more than a product recall. CNA Paramount® offers an extensive Product Recall Expense Coverage endorsement with certain first and third party coverages, to help manage the financial impact that may ensue from a product recall.

### Additional coverage from an insurer you can trust.

Other key coverages available from CNA include:

- Cyber Liability
- International Exposures
- Manufacturer's Errors & Omissions
- Employment Practices Liability
- Limited Pollution Liability
- Ocean Cargo

## Find risk vulnerabilities before a claim occurs with CNA Risk Control services — the only organization with UL Recognized Risk Engineers.

CNA offers a wide range of programs, services, and classes to assist manufacturing companies in keeping their employees safe, profitable and fully operational.

### Business continuity planning

Organizations that fail to begin regular business functions within 72 hours after a disaster occurs are at a greater risk of going out of business than those that do. That is why every business should develop and implement a business continuity plan. Our Business Continuity Certified specialists, in partnership with our allied vendors, offer experience that organizations can use to prepare the most constructive course of action to pursue in the event of a disaster, and reduce the impact of any business interruption.

### Supply chain

If a critical supplier experiences a business interruption due to equipment breakdown, a fire or weather-related event, the impact can be the same as if it were a company's own facility. Advance planning can help minimize the impact that a supply chain interruption has on a company's bottom line.

### Reducing catastrophes and employee injuries

Reducing catastrophes and employee injuries goes beyond simply making sure a floor isn't slippery. Workspaces should be evaluated from a process management standpoint. By observing five practices, manufacturers can boost employee productivity and product quality. Equally important, firms can also reduce employee injuries and exposure for fires and other catastrophes that can shut them down — permanently.

## Prompt, attentive and customer-focused claim management.

Our philosophy is simple — manage claims quickly, fairly and accurately. For claim services that exceed the expectations of manufacturers, look no further than CNA. We strive to be the industry's best claim organization and, according to our clients, we're on the right track. Our customer survey results reflect our clients' satisfaction with our claim service. Our claim professionals are here to support manufacturers — across the country and around the clock.

### With CNA Paramount® you can expect:

- A robust coverage solution with basic and additional coverages in a single package
- A modular form for easily tailored coverages
- A concise and forward-thinking design resulting in a cleaner and easier-to-understand policy form
- Underwriting, claim and risk control teams comprised of experienced individuals working together to provide tailored insurance solutions

### Count on our stability and financial strength.

With an "A" rating for financial strength from A.M. Best, CNA has the resources and tools to assist businesses in mitigating their risks. Additionally, we offer:

- Local underwriting authority
- A broad product portfolio with the ability to write a broad range of property and casualty risks
- Nationwide risk control services to help assess and address risk exposures
- Claim support services in all 50 states and more than 150 countries around the world

When it comes to finding an insurer with the industry knowledge and experience to better understand our customers' needs
